

Butler School District 53

Summer Academy 2010

Location:
Brook Forest Elementary School

Welcome to Butler School District's Summer Academy 2010!

Butler School District 53 is pleased to offer our Summer Academy to students currently enrolled in Grades KG-7 during the 2009-2010 school year. The purpose of Summer Academy is to provide supplemental instruction in core subject areas to students who would benefit from additional academic support. Summer Academy will utilize a variety of researched-based interventions to support and reinforce skills in the areas of language arts and math. All classes will be instructed by Butler School District staff in a small, supported learning environment. Separate sessions will occur in June and August, offering unique content and instruction.

Students recommended for this program are those who have targeted reading and math needs, as identified through our Response to Intervention (Rtl) process. Through the Rtl process, individual student performance is analyzed on a variety of standardized assessments and curriculum based measures. Consideration is also given to daily classroom performance to determine instructional needs. Although this program is optional, participation and attendance are highly encouraged during both sessions.
