Current Year Payment on Contracts For Indirect Cost Rate Computation

Please do not remove and reinsert this tab from the workbook or paste into this tab. The AFR will be returned to the auditor if this tab is completed incorrectly.

This schedule is to calculate the amount allowed on contracts obligated by the school district for the Indirect Cost Rate calculation. The contracts should be only for purchase services and not for salary contracts. Do not include contracts for Capital Outlay (500) or Non-Capitalized Equipment (700) on this schedule. They are excluded from the Indirect Cost Rate calculation.

To determine the applicable contracts for this schedule, they must meet ALL three qualifications below:

- 1. The contract must be coded to one of the combinations listed on the icon below called "Fund-Function-Object Chart"
- 2. The contract must meet the qualifications on the icons below: the "Indirect Cost Plan" (Page 12 & 13 Sub-agreement for Services) and the "Subaward & Subcontract Guidance"
- 3. Only list contracts that were paid over \$25,000 for the fiscal year.

1. Double click icon to the right for a list of Fund-Function-Objects to use below. Fund-Function-Object Chart Indirect Cost Plan (double click to view) Subaward & Subcontract 2. Double click icons to the left for the qualifications of Sub-agreement for Services.

Column A, B, C, D below must be completed for each contract. Enter Column B without hypens. Ex) 101000600

Column (E) and (F) are calculated automatically based on the information provided in Columns (A through D).

The amount in column (E) is the amount allowed on each contract in the Indirect Cost Rate calculation. The amount in column (F) is the amount that will be deducted from the base in the indirect cost rate (page 30) for Program Year 2023.

Enter Fund-Function-Object Name, Where the Expenditure was Recorded (Column A)	В)	ber (Column B) (Column C)		Contract Amount Applied to the Indirect Cost Rate Base (Column E)	Contract Amount deducted from the Indirect Cost Rate Base (Column F)

Butler School District 53 Corrective Action Plans Year Ended June 30, 2021

2021-001

Condition: One individual is performing all roles related to the District's Illinois Municipal Retirement Fund (IMRF) including entering information for new enrollments, contribution information, and reviewing all reports. In addition, this individual is the sole administrator of the District's accounting software and is responsible for adding, removing, and changing the pay rates of employees in the payroll module. As a result, some of the aspects of internal accounting control which rely upon adequate segregation of duties are missing.

Corrective Action Plan: The District is currently completing a business office review with its Outside Accountant and Treasurer to determine roles and responsibilities that will allow for adding controls that mitigate the risk of the District's small size. The District believes that review will produce processes that are well controlled for their needs but acknowledge that some residual risk may remain. At that time, the District will assess the magnitude of that risk and weigh its effects against the cost of adding staff or other measures to make a final determination of what resources are appropriate for the business office.

Expected Date of Completion: Fiscal year 2022

Contact Person: Dr. Paul O'Malley, Superintendent

2020-002

Condition: The District did not timely remove a retired employee as the authorized signor on the District's vendor bank account and the retired employee remained the signor in the District' s accounting system and electronically signed checks after

their termination. As a result, internal controls over the District's disbursements were lacking during the year.

Corrective Action Plan: The access that remained for the formal business manager was an unintentional oversight and the District has determined that it was not utilized by her or anyone else. The District has since terminated that access. As part of the business office review described above, the District will be going through the security profiles of users in Skyward to ensure that unnecessary authority is eliminated. The District will also be aligning these capabilities with the responsibilities of each individual in their updated procedures. This same exercise will be done for all bank accounts to ensure that only the Treasurer and Superintendent have signing authority on those accounts.

Expected Date of Completion: Fiscal year 2022

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTARY INFORMATION

The Members of the Board of Education Butler Elementary School District No. 53 Oak Brook, Illinois

We have audited the financial statements of the governmental activities and each major fund of Butler Elementary School District No. 53 (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 11, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the basic financial statements.

The accompanying Annual Financial Report is presented for purposes of additional analysis and is not a required part of the basic financial statements. As described more fully in Note A, this regulatory-based financial report is issued to comply with regulatory provisions prescribed by the Illinois State Board of Education, which is a basis of accounting other than, and differs from, accounting principles generally accepted in the United States of America. It is intended to assure effective legislative and public oversight of school district financing and spending activities of accountable Illinois public school districts. The effects on the Annual Financial Report of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

The accompanying Basic Financial Statements, Supplementary Schedules, and Notes to the Annual Financial Report, as listed in the table of contents of this Annual Financial Report, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, that information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The financial profile information, estimated financial profile summary, statistical section, report on shared services or outsourcing, administrative cost worksheet, itemization schedule, reference page, deficit reduction calculation, and Audit Checklist/Balancing Schedule, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

The answers to questions contained in the "Auditor's Questionnaire" and related comments are based solely on the procedures performed and data obtained during our audit of the basic financial statements of the District as of and for the year ended June 30, 2021.

NOTE TO THE ANNUAL FINANCIAL REPORT June 30, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This annual financial report for Butler Elementary School District No. 53 (the District) is supplementary information and is presented to conform to the regulatory provisions prescribed by the Illinois State Board of Education (regulatory basis), which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP), as applicable to Illinois school districts. The significant differences between this regulatory basis annual financial report and the District's annual financial statements (which are presented in accordance with GAAP) are as follows:

The District's annual financial statements contain entity-wide statements that are not included in this regulatory basis annual financial report.

This regulatory basis annual financial report uses the modified accrual basis of accounting and the annual financial statements use both the accrual and modified accrual basis of accounting.

The basic financial statements of this regulatory basis annual financial report while similar to the governmental fund financial statements of the annual financial statements, present individual funds for Educational and Working Cash while these funds are combined and presented as the General fund within the governmental funds of the District's annual financial statements. Additionally, the amounts presented as deferred inflows of resources on the governmental funds of the District's annual financials statements are reported as deferred revenues on this regulatory basis report.

The regulatory basis annual financial report utilizes account groups, explained below, while the annual financial statements does not.

1. General Fixed Assets and General Long-Term Debt Account Groups

Account groups are used to establish accounting control and accountability for the District's capital assets and general long-term debt. The accounting and financial reporting treatment applied to the capital assets and long-term liabilities associated with a fund are determined by its measurement focus.

Capital assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as expenditures paid in the governmental funds and capitalized, at cost, in the General Fixed Assets Account Group. Donated capital assets are listed at acquisition value as of the date of acquisition. Depreciation accounting is not applicable, except to determine the per capita tuition charge.

Butler Elementary School District No. 53

NOTE TO THE ANNUAL FINANCIAL REPORT June 30, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. General Fixed Assets and General Long-Term Debt Account Groups (Continued)

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds. The debt recorded in the District's General Long-Term Debt Account Group consists of general obligation bonds and a capital lease.

The two account groups are not "funds." Account groups are concerned only with the measurement of financial position. Account Groups are not involved with measurement of the results of operations.

2. Fund Balances

In the fund financial statements, the governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned (the definitions for which are included in the notes in the District's annual financial statements). The Regulatory Model, followed by the District, only reports reserved and unreserved fund balances. Below are definitions of the Regulatory Basis components and a reconciliation of how these balances are reported.

Reserved Fund Balances are those balances that are reserved for a specific purpose, other than the regular purpose of any given fund.

Unreserved Fund Balances are those balances that are not reserved for a specific purpose, other than the regular purpose of any given fund.

The first five columns of the following table represents Fund Balance Reporting according to the cash basis of accounting. The last two columns represent Fund Balance Reporting under the regulatory basis of accounting utilized in preparation of the annual financial report.
