The Members of the Board of Education Butler Elementary School District No. 53 Oak Brook, Illinois

We have audited the financial statements of the governmental activities and each major fund of Butler Elementary School District No. 53 (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We have issued our report thereon dated, November 16, 2022, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements.

The accompanying Annual Financial Report is presented for purposes of additional analysis and is not a required part of the basic financial statements. As described more fully in Note A, this regulatory-based financial report is issued to comply with regulatory provisions prescribed by the Illinois State Board of Education, which is a basis of accounting other than, and differs from, accounting principles generally accepted in the United States of America. It is intended to assure effective legislative and public oversight of school district financing and spending activities of accountable Illinois public school districts. The effects on the Annual Financial Report of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of States of America, although not reasonably determinable, are presumed to be material.

The accompanying Basic Financial Statements, Supplementary Schedules, and Notes to the Annual Financial Report, as listed in the table of contents of this Annual Financial Report, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, that information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Management is responsible for the other information included in this Annual Financial Report. The other information comprises the financial profile information, estimated financial profile summary, statistical section, report on shared services or outsourcing, administrative cost worksheet, itemization schedule, reference page, deficit reduction calculation and Audit Checklist/Balancing Schedule, as listed in the table of contents sections, but does not include the basic financial statements and our auditor's report thereon (referred to in the first paragraph of this report). Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

NOTE TO THE ANNUAL FINANCIAL REPORT

June 30, 2022

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This annual financial report for Butler Elementary School District No. 53 (the District) is supplementary information and is presented to conform to the regulatory provisions prescribed by the Illinois State Board of Education (regulatory basis), which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP), as applicable to Illinois school districts. The significant differences between this regulatory basis annual financial report and the District's annual financial statements (which are presented in accordance with GAAP) are as follows:

The District's annual financial statements contain entity-wide statements that are not included in this regulatory basis annual financial report.

This regulatory basis annual financial report uses the modified accrual basis of accounting and the annual financial statements use both the accrual and modified accrual basis of accounting.

The basic financial statements of this regulatory basis annual financial report while similar to the governmental fund financial statements of the annual financial statements, present individual funds for Educational and Working Cash while these funds are combined and presented as the General fund within the governmental funds of the District's annual financial statements. Additionally, the amounts presented as deferred inflows of resources on the governmental funds of the District's annual financial statements are reported as deferred revenues on this regulatory basis report.

The regulatory basis annual financial report utilizes account groups, explained below, while the annual financial statements does not.

#### 1. General Fixed Assets and General Long-Term Debt Account Groups

Account groups are used to establish accounting control and accountability for the District's capital assets and general long-term debt. The accounting and financial reporting treatment applied to the capital assets and long-term liabilities associated with a fund are determined by its measurement focus.

Capital assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as expenditures paid in the governmental funds and capitalized, at cost, in the General Fixed Assets Account Group. Donated capital assets are listed at acquisition value as of the date of acquisition. Depreciation and amortization accounting is not applicable, except to determine the per capita tuition charge.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds. The debt recorded in the District's General Long-Term Debt Account Group consists of general obligation bonds and debt certificates.

The two account groups are not "funds." Account groups are concerned only with the measurement of financial position. Account Groups are not involved with measurement of the results of operations.

#### 2. Fund Balances

In the fund financial statements, the governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned (the definitions for which are included in the notes in the District's annual financial statements). The Regulatory Model, followed by the District, only reports reserved and unreserved fund balances. Below are definitions of the Regulatory Basis components and a reconciliation of how these balances are reported.

*Reserved Fund Balances* are those balances that are reserved for a specific purpose, other than the regular purpose of any given fund.

Unreserved Fund Balances are those balances that are not reserved for a specific purpose, other than the regular purpose of any given fund.
